

No: 23/2021/DGW-TGD

HCMC, August 20th, 2021Regarding: Result Explanation for
Audited Interim Consolidated
Financial Statements 2021

To:

- **The State Securities Commission**
- **Ho Chi Minh Stock Exchange**

According to our Business Performance in the first 6 months of 2021 of the Consolidated financial statements dated August 20th, 2021, the Company would like to clarify the changes as below:

Indicators	6m2021 (VND)	6m2020 (VND)	Up/Down (%)
Net revenue	9,224,338,118,009	4,892,691,349,642	+89%
Profit after tax	223,465,083,582	93,120,564,884	+140%

Reasons:

- In the first 6 months of 2021, net revenue reached VND 9,225bn, increasing 89% YoY. Profit after tax reached VND 223bn, advancing 140% YoY. This growth comes entirely from core business activities:

- **Laptops and tablets:** recorded a growth with VND 2,705 billion revenue, boosted 45% year on year thanks to the growth from all current brands, especially the contribution of two new brands, Apple and Huawei.
- **Mobile phones:** net revenue reached VND 4,979 billion, up 118% YoY thanks to the maintenance of Xiaomi's market share and the contribution from Iphone series.
- **Office equipment:** revenue reached VND 1,381 billion, recording an impressive growth of 125% YoY thanks to the diversification of IoT products from Xiaomi, Huawei and Apple to accommodate many customer segments. Revenue from these products is increasing and becoming the main growth driver of Office Equipment in the future.
- **Consumer goods:** net revenue reached VND 160bn, up 31% thanks to the contribution of Regenflex osteoarthritis products and Nestlé nutritional milk. Although health care products are strongly affected by social distancing measures, consumer goods products for daily life still recorded a positive sign.

Thus, in the first 6M21, the Company completed 61% and 74% of the year plan in terms of net revenue and profit after tax, respectively.

Sincerely.
