Cultural and artistic education, Other education not elsewhere classified: public speaking skills training; computer training; preparatory education; foreign language teaching and conversation skills teaching. Education support services./.

4- Characteristics of the enterprise's business activities during the accounting period that affect the financial

II- Accounting period, currency used in accounting:

1- Annual accounting period: starting from January 1, 2024 and ending on December 31, 2024

2- Currency used in accounting: Vietnamese Dong

III- Applicable accounting standards and regimes:

1- Applicable accounting regime: Enterprise accounting regime (according to Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance).

2- Statement on compliance with Accounting Standards and Accounting Regime: Financial statements are prepared and presented in accordance with Vietnamese accounting standards and regimes

3- Applicable accounting form: Vouchers for book entry

IV- Applicable accounting policies:

1- Principles for recording cash and cash equivalents: Economic transactions are recorded and reported in Vietnamese Dong

Method of converting other currencies into the currency used in accounting: actual exchange rate

Economic transactions arising in foreign currencies are converted at the exchange rate on the date of the transaction. The balance of foreign currency items is converted at the exchange rate on the last day of the period.

2- Principles for recording inventories:

- Principles for recording inventories: at original cost

- Method for calculating inventory value: Weighted average

- Method for accounting for inventories: Regular declaration method

- Method for setting up inventory price reduction reserves: according to Circular 228/2009/TT-BTC dated December 7, 2009 guiding the regime of setting up and using reserves of the Ministry of Finance.

3- Principles for recording and depreciating fixed assets and investment real estate:

- Principles for recording fixed assets (tangible, intangible, financial lease); at original cost, shown in the balance sheet according to 3 indicators: Original cost, accumulated depreciation, and residual value.

- Method of depreciating fixed asset (tangible, intangible, finance lease): straight line

4- Principles of recording and depreciating investment real estate

- Principles of recording investment real estate: at original cost

- Method of depreciating investment real estate: straight line

5- Principles of recording financial investments:

- Investments in subsidiaries, associates, capital contributions to jointly controlled businesses;

+ Investments are called investments in subsidiaries when this investment accounts for more than 50% of equity (more than 50% of voting rights) and are reflected at cost.

+ Investments are called investments in associates when this investment accounts for 20% to 50% of charter capital (20% to 50% of voting rights) and are reflected at cost.

- Short-term securities investments reflect the buying and selling of securities with a recovery period of no more than 1 year.

- Other short-term and long-term investments reflect the investment situation in other units in which the company holds less than 20% of equity, and other investments with a term of more than 2 years.

- Method of establishing provisions for short-term and long-term investment depreciation: according to Circular 228/2009/TT-BTC dated December 7, 2009 guiding the regime of setting up and using provisions of the Ministry of Finance.

6- Principles of recording and capitalizing borrowing costs:

- Principles of recording borrowing costs: borrowing costs are capitalized according to the provisions of accounting standard 16 "Borrowing costs".

7- Principles for recording and capitalizing other expenses:

8- Principles for recording payable expenses:

Accrued expenses are recorded based on reasonable estimates of the amount payable for goods and services used during the period and according to the plan to be implemented

9- Principles and methods for recording provisions for payables:

10- Principles for recording equity:

- Principles for recording owners' investment capital, capital surplus, and other capital of owners: Equity is recorded according to the actual capital contributed by the owner, capital surplus is recorded according to the larger (or smaller) difference between the actual issuance price and the par value of shares when issuing shares for the first time, issuing additional shares, or reissuing treasury shares.

- Principles for recording differences in revaluation of assets:

- Principles for recording exchange rate differences:

Exchange rate differences arising during the period and exchange rate differences due to revaluation of foreign currency items at the end of the period are recorded in income or expenses during the period.

- Principles for recording undistributed profits.

11- Principles and methods of recording revenue:

- Sales revenue: revenue recognition fully complies with the 5 conditions for revenue recognition specified in Standard 14 "Revenue and other income".

Revenue is recognized when the majority of risks and benefits associated with the ownership of the goods are transferred to the buyer and there are no significant uncertainties regarding the payment, associated costs or the possibility of the goods being returned.

For Real Estate revenue - Residential areas, the company signs an Investment Cooperation contract with customers divided into 2 phases:

+ Phase 1: The customer will be handed over the rights specified in the contract regarding the use of land to build houses at an agreed price. The company allows customers to transfer the rights specified in the transfer appendix contract to others to enjoy the benefits and bear the risks associated with the land. Revenue in this phase can be recognized when transferring the land to the customer through the "Minutes of Land Handover".

+ Phase 2: Building a house for the customer: The customer has the right to choose a subcontractor, supervise the construction process and the construction value is agreed and specified in a separate contract. Revenue in this phase is recognized according to the percentage of completion method.

12- Principles and methods of recording financial expenses:

13- Principles and methods of recording current corporate income tax expenses, deferred corporate income tax (CIT) expenses.

- Current income tax expenses are determined on the basis of: Taxable income and CIT rate

- CIT rate is 20%

- Deferred corporate income tax expenses are the corporate income tax that will be paid or refunded due to the temporary difference between the book value of assets and liabilities for financial reporting purposes and the values used for tax purposes. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

- The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

- Deferred income tax assets and deferred income taxes are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability settled, based on tax rates that have been enacted at the balance sheet date.

Deferred income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

14- Foreign exchange risk hedging operations: none**15- Provision for unemployment benefit reserve fund:**

Pursuant to the Law on Social Insurance, from 1 January 2009, the Company and its employees are required to contribute to the unemployment insurance fund. The contribution rate for each party is calculated at 1% of the lower of the employee's basic salary and 20 times the general minimum wage prescribed by the Government from time to time. With the application of the unemployment insurance regime, the Company is not required to make provisions for severance allowance for the period of service of employees after 1 January 2009. However, the severance allowance payable to existing eligible employees as at 31 December 2008 will be determined based on the employee's years of service as at 31 December 2008 and their average salary for the six months prior to the date of termination.

16- Related parties:

Parties are considered to be related if one party has the ability to control or exercise significant influence over the other party in making financial and operating decisions

Board of Directors and Board of General Directors	Salary and remuneration	432,600,000	696,600,000

33. Explanation of the income statement in the 4th quarter of 2024 consolidation:

Business results in the fourth quarter of 2024 consolidated that the Company lost VND 10.9 billion. The reason was that in the period the Company did not record real estate business activities. Interest expense and business management expenses in the period all decreased significantly compared to the same period last year because in the period the Company settled most of the due loans and tightened spending. However, the business results of the fourth quarter of 2024 are still at a loss, but the company's full-year business results have made a profit of VND 134.2 billion, exceeding the target set by the profit plan in 2024.
