- The Board of Directors and functional departments have seriously implemented the Resolutions of the General Meeting of Shareholders and the Board of Directors and performed their functions and duties well in accordance with the provisions of law and the Company's Charter.
- The results of implementing the main business objectives in 2024 are as follows:

Unit: billion VND

No.	Indicator	Parent company			Consolidated		
		Plan	Perform	Proportion complete	Plan	Perform	Proportion complete
1	Net revenue	4,084.50	3,105.24	76.03%	4,566.20	3,577.54	78.35%

4	Profit after tax of parent company				254.40	223.87	88.00%

In 2024, consolidated revenue and profit after tax were higher than those in 2023 but lower than the plan. The reasons were:

- Construction sector: During the planning stage, the Company did not fully anticipate the fluctuations and difficulties in bidding and searching for new projects. This resulted in a shortage of new contracts compared to expectations. Some projects did not meet the plan due to objective construction conditions such as: the impact of storms, complex geological conditions, the Investor's delay in handing over the construction site, etc.
- Hydropower sector: due to the impact of hydro-climatic conditions, revenue did not meet expectations.
- Real estate sector: the real estate market is recovering slowly, as well as difficulties in completing legal procedures for projects.
