- Contents of disclosure: Viet Dong Investment Development Trading Corporation hereby discloses the explanation for the fluctuation in business results in the financial statements for quarter 1 of 2025.

Company's Explanation:

Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance on the guidance of information disclosure on the securities market.

Viet Dong Investment Development Trading Corporation provides the explanation for some issues related to the quarter 1 of 2025 financial statements as follows.

1. Explanation for the fluctuation in business results for quarter 1 of 2025 - Parent Company

Item (VND)	Quarter 1 of 2025	Quarter 1 of 2024	% YoY
(1)	(2)	(3)	(4)=(2)/(3)
Profit after tax	241.261.547	1.140.797.201	21 %

Main reasons:

The profit after tax for quarter 1 of 2025 decreased compared to quarter 1 of 2024 primarily due to a reduction in financial income. Specifically, in quarter 1 of 2024, the company received dividends from joint ventures and associates for the 2023 financial year. However, due to the current unstable business environment and the focus of joint ventures and associates on adapting to the situation, they have not yet held their annual general meetings. As a result, the company did not recognize any dividend income for the 2024 financial year from these entities. Consequently, the financial income for quarter 1 of 2025 reached only 70% of that in the same period last year, resulting in a profit after tax for quarter 1 of 2025 reaching only 21% of quarter 1 of 2024's profit.

2. Explanation for the fluctuation in business results for quarter 1 of 2025 - Consolidated.

Item (VND)	Quarter 1 of 2025	Quarter 1 of 2024	% YoY
(1)	(2)	(3)	(4)=(2)/(3)

Profit after tax	236.844.991	2.575.930.682	9 %
------------------	-------------	---------------	-----

Main reasons:

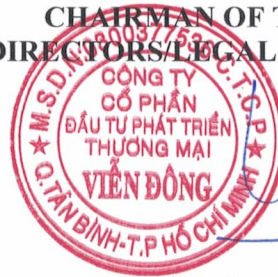

The profit after tax for quarter 1 of 2025 decreased compared to quarter 1 of 2024 because the subsidiary is in the process of adjusting its operations to align with the challenges in the business environment, including adapting to significant changes in the VND/USD exchange rate, the prices of raw materials, and other rising costs. As a result, the gross profit margin decreased, and the profit after tax in quarter 1 of 2025 reached only 9% of quarter 1 of 2024's profit.
