***Explanation of Measures and
Roadmap for Remedying the Warning
Status of the Company's Shares***

THE SOCIALIST REPUBLIC OF VIETNAM

Independence - Freedom – Happiness

Hanoi, September 23, 2026

To: - State Securities Commission of Vietnam;
- Ho Chi Minh City Stock Exchange;

Pha Le Plastics Manufacturing and Technology Joint Stock Company (Stock Code: PLP) respectfully extends its greetings to your esteemed authorities.

Pursuant to Official Letter No. 1489/SGDCK-NY dated September 15, 2026, issued by the Ho Chi Minh City Stock Exchange regarding the implementation of measures and a roadmap to remedy the warning status of the Company's shares, the Company hereby reports and provides its explanation as follows:

1. Explanation of the Reasons for the Company's Shares Being Placed under Warning Status:

The Company's shares (PLP) were placed under warning status due to the Company's failure to disclose its reviewed Semi-annual Financial Statements for 2026 within the prescribed deadline.

The delay in information disclosure was attributable to the fact that the contract with the audit firm for 2026 was signed later than originally planned. In addition, 2026 is the first year in which the Company has engaged a new audit firm to conduct its audit and review. Accordingly, the process of exchanging information, providing and reviewing the necessary records and documents involved a number of matters requiring coordination, resulting in a longer-than-expected processing time.

The Company takes the delay in disclosing its reviewed Semi-annual Financial Statements for 2026 seriously and fully acknowledges the responsibilities of a listed company to fulfill its information disclosure obligations completely and within the prescribed deadlines in accordance with applicable laws and regulations.

2. Measures and Roadmap for Remedying the Warning Status:

The Company is focusing on coordinating with the audit firm to complete the review of its Semi-annual Financial Statements for 2026 and expects to proceed according to the following roadmap:

- Continue to complete and supplement records and documents, and address outstanding matters in accordance with the audit firm's requirements.

- Complete the review and disclose the reviewed Semi-annual Financial Statements for 2026 as soon as possible.
- Upon completion, fulfill all information disclosure obligations in accordance with applicable regulations, while continuing to monitor and implement measures to address the causes leading to the warning status of the Company's shares.

During the review process, the Company's production and business activities, as well as its governance and management operations, have continued as normal, ensuring that its operations remain continuous, stable, and uninterrupted.

The Company undertakes to continue working closely with the audit firm to expedite the process, complete the review, and At the same time, the Company will draw lessons from this matter and strengthen its planning, document preparation, and coordination in the audit and review of financial statements. The Company will also enhance its governance, control, and oversight activities to ensure the full and timely fulfillment of its information disclosure obligations in accordance with applicable laws and regulations and the requirements of the Ho Chi Minh City Stock Exchange.

Sincerely./.

**PHA LE PLASTICS MANUFACTURING
AND TECHNOLOGY JOINT STOCK COMPANY**

(Signed)
