SSC AND LUXEMBOURG'S MINISTRY OF FINANCE PROMOTE COOPERATION IN SECURITIES MARKET DEVELOPMENT AND ATTRACTING INTERNATIONAL INVESTMENT CAPITAL

October 13th, 2026 – At the Hochiminh Stock Exchange (HOSE), Mr. Ha Duy Tung, Vice Chairman of the State Securities Commission of Vietnam (SSC), held a working meeting with Mr. Gilles Roth, Minister of Finance of the Grand Duchy of Luxembourg, along with the Luxembourg delegation. The two sides discussed orientations to strengthen cooperation in capital market development, connect stock exchanges, and promote international investment flows into the Vietnam's stock market.

Vice Chairman Ha Duy Tung highlighted that Vietnam has achieved positive results in institutional development, infrastructure modernization, and market development. Particularly, the Vietnam's securities market was announced by FTSE Russell for upgrading to Emerging Market status. This serves as an important foundation to further strengthen connectivity with international capital markets and expand access for foreign investors.

Recognizing Luxembourg as one of the world's leading financial centers, particularly with strengths in fund management and international investment, Vice Chairman Ha Duy Tung expressed the desire to enhance cooperation to attract participation from financial institutions and major investment funds in Luxembourg into Vietnam's securities market.

In addition to attracting international investment funds, Vice Chairman Ha Duy Tung proposed continuing to promote cooperation between the stock exchanges of both countries, maximizing the effectiveness of signed cooperation agreements, particularly in developing green financial products, enhancing market connectivity, sharing experience in market management, supervision and building human resource capacity.

Minister Gilles Roth highly appreciated the prospects of strengthening connectivity between the Vietnam and Luxembourg securities markets. Furthermore, Luxembourg can serve as a gateway to help Vietnamese enterprises to access the international capital market, especially in green bonds, sustainability bonds, and new financial products.

According to the Minister, alongside the legal framework, supervisory mechanisms, and modern market infrastructure, the human element plays a decisive role. Luxembourg stands ready to welcome Vietnamese officials for exchange and learning experiences in capital market development and the operations of stock exchanges.
