2. Content of disclosed information:

Pursuant to Circular No. 96/2020/TT-BTC guiding the disclosure of information on the securities market.

Sai Gon Vien Dong Technology Joint Stock Company hereby provides an explanation for the difference in its financial results for the third quarter of 2026, which recorded a loss, compared to a profit in the corresponding period of the previous year, with the profit after tax differing by more than 10%, specifically as follows:

Contents	Business performance		Difference
	Quarter 3/2026	Quarter 3/2025	
Net revenue from goods sale and service provision	5.111.077.099	5.615.589.472	- 504.512.373
Profit after tax	-471.812.857	+2.813.372.547	- 3.285.185.404

This is an English version. If there is any discrepancy or different understanding between the Vietnamese version and the English version, the Vietnamese version shall prevail.

Reasons for the difference:

* Regarding revenue in the third quarter of 2026, compared with the same period of the previous year, revenue decreased but not significantly due to changes in the number of students enrolling in the 2026-2027 academic year.

* Regarding profit after tax, this quarter's profit decreased significantly compared with the same quarter of the previous year, stemming from expenses for investment in facilities and equipment for the school in preparation for the opening of the new 2026-2027 academic year.

* Regarding financial investment activities, there were no significant fluctuations this quarter compared with the third quarter of 2025 because the energy crisis is still ongoing, having a broader and deeper impact on most of the global economy, including Vietnam, while domestic enterprises are facing increasing difficulties due to fluctuations in the prices of supplies and raw materials, interest rates, and exchange rates ...
