*Re: Explanation of after-tax profit fluctuations  
on the financial statements of the third quarter  
of 2026*

**To:**                   - **State Securities Commission**  
                              - **Ho Chi Minh City Stock Exchange**

Pursuant to Circular No. 96/2020/TT-BTC dated 16 November 2020 of the Ministry of Finance providing guidance on information disclosure in the securities market, and Decision No. 21/QD-SGDVN dated 21 December 2021 promulgating the Regulation on Information Disclosure at the Vietnam Stock Exchange and its subsidiaries, Vu Dang Investment & Trading Joint Stock Company (Stock Code: SVD) hereby provides the following explanation for the changes in profit after tax as presented in the Company's financial statements for the third quarter of 2026:

*Unit: VND*

| Content          | Quarter<br>III/2026 | Quarter<br>III/2025 | Difference      | Proportion<br>(%) |
|------------------|---------------------|---------------------|-----------------|-------------------|
|                  | 1                   | 2                   | 3=1-2           | 4=3/2             |
| Net revenue      | 77.184.897.430      | 112.828.651.743     | -35.643.754.313 | -31,59%           |
| Profit after tax | 211.111.378         | 1.087.309.095       | -876.197.717    | -80,58%           |

**Reasons:**

- In the third quarter of 2026, the Company's cotton and yarn production and business activities were affected by the overall macroeconomic environment. Raw material prices (raw cotton) fluctuated considerably, while demand for yarn products in the domestic market faced significant challenges. In addition, selling price competition affected the Company's ability to sell its products, thereby impacting its revenue and business performance.
- Net revenue from sales of goods and rendering of services in the third quarter of 2026 reached VND 77,18 billion, down VND 35,64 billion (equivalent to a decrease of 31,59%) compared with the same period in 2025. Thanks to cost optimization measures, the cost of goods sold decreased by 31,83% year-on-year, resulting in an increase in the gross profit margin from 3,07% to 3,41%, indicating an improvement in the efficiency of generating gross profit from revenue. However, due to the significant decline in revenue, gross profit for the period reached only VND 2,63 billion, down VND 835,63 million (equivalent to a decrease of 24,12%) compared with the same period in 2025.
- In addition, proactive control of outstanding borrowings resulted in a 7,8% decrease in finance costs in the third quarter of 2026 compared with the same period in the previous year. However, the reduction in finance costs was insufficient to offset the decline in gross profit, the impact of selling expenses incurred during the period, and the increase in administrative expenses. Consequently, profit after tax for the third quarter of 2026 reached only VND 211,11 million, down VND 876,2 million (equivalent to a decrease of 80,58%) compared with the same period in 2025.

The above is the Company's explanation for the decrease of more than 10% in profit after tax for the third quarter of 2026 compared with the same period of 2025, as reported by Vu Dang Investment & Trading Joint Stock Company.

Respect./.
