On October 20, 2026, Do Thanh Technology Joint Stock Company announced the Financial Report for the third quarter of 2026. Our company issued this document to explain the profit fluctuations in the third quarter of 2026 compared to the profit in the third quarter of 2025 as follows:

Target	Third quarter III/2026	Third quarter III/2025	Difference (increase+)/ decrease (-)%
Net revenue	64.368.190.699	55.859.726.069	+15.23 %
Costs of goods sold	51.717.485.887	45.238.909.753	+14.32%
Profit after corporate income tax	5.207.540.087	3.987.237.402	+ 30.61%

The reason for the decrease in after-tax profit in the **Third** quarter of 2026 compared to the **Third** quarter of 2025 is due to:

- Both production and consumption increased
- Control input material prices were tightly.
- Control costs in production and business operations.

Above is the explanation of Do Thanh Technology Corporation.

Best regards!
