2. Stock symbol: **ECO**
3. Address of head office: Trung Duong Village, Gia Lam Commune, Hanoi City
4. Telephone: 0221 3791 003
5. Explanations:

Explanations for the differences of more than 10% of the Profit after corporate income tax on the financial statements of the 3rd quarter of 2026 compared to the same period in 2025:

Criteria	Quarter III/2026 *(VND)*	Quarter III/2025 *(VND)*	Differences *(+/- VND)*	% of differences
Separate Financial Statements Profit after corporate income tax	1.456.541.999	5.368.652.100	(3.912.110.101)	-72,87%
Consolidated Financial Statements Profit after corporate income tax	135.302.348	5.130.901.011	(4.995.598.663)	-97,36%

I. The Separate Financial Statement for 3rd quarter 2026

The profit after tax reported in the Separate Financial Statements for the third quarter of 2026 decreased by VND 3.9 billion, equivalent to 72.87%, compared to the same period in 2025, mainly due to the following reasons:

1. Significant increase in cost of goods sold due to fluctuations in raw material prices

During the first nine months of 2026, the prices of plastic resin raw materials increased significantly, resulting in higher raw material input costs for the Company. Accordingly, the ratio of cost of goods sold to net revenue increased from 88.83% in the same period of 2025 to 93.28% in 2026, representing an increase of 4.45 percentage points. This directly put pressure on gross profit and narrowed the Company's profit margin.

2. Limited ability to adjust selling prices

As most of the Company's long-term sales contracts had been signed with customers at predetermined fixed prices, the Company was unable to promptly adjust its selling prices in line with the increase in plastic resin raw material costs. The discrepancy between the rate of increase in raw material prices and the Company's selling prices adversely affected its profit margin, particularly in the third quarter of 2026.

II. The Consolidated Financial Statement for 3rd quarter 2026

Profit after tax in the Consolidated Financial Statements for the third quarter of 2026 decreased by VND 4.99 billion, representing a decline of 97.36%. This decrease was attributable to the factors affecting the

Parent Company's profit, as explained above, as well as the fact that the subsidiary had not yet generated any revenue, as it was still in the implementation phase of its factory construction project.

Viet Nam Eco Plastic Technology Joint Stock Company would like to provide the explaination of the differences of more than 10% of the Profit after corporate income tax on the financial statements of the 3rd quarter of 2026 compared to the same period in 2025 as above to the State Securities Commission and Ho Chi Minh Stock Exchange.

With best regards!
