

VNSI – Vietnam Sustainability Index

INDEX DESCRIPTION

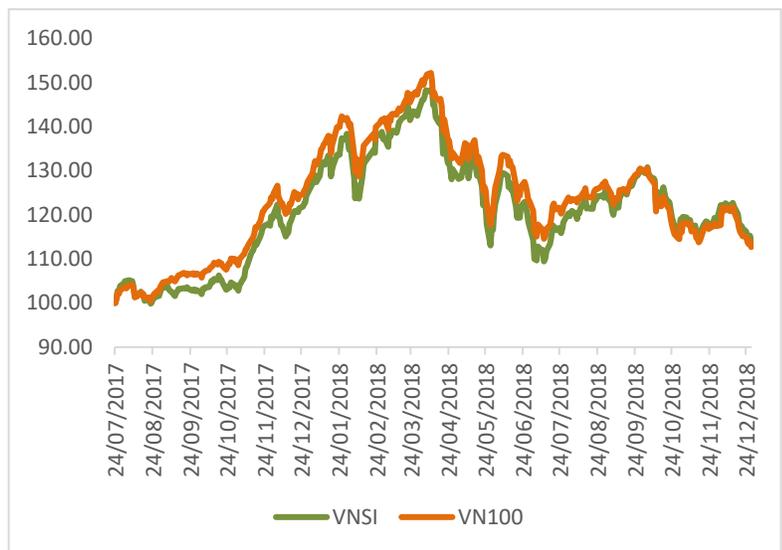

VNSI is a cap-weighted, free-float adjusted index consisted of listed companies with highest scores of sustainability. The constituents of VNSI is selected from VN100 (100 largest companies listed on HOSE) which undergoes an ESG evaluation process. The Index is disseminated in real time (5 seconds/time).

VNSI is designed as a reference tool or an underlying for the development of future financial instruments such as ETF and index derivatives.
