Auditor

A&C Auditing and Consulting Co., Ltd. has been appointed to audit the Financial Statements for the fiscal year ended 31 December 2019 of the Company.

Responsibilities of the Board of Directors

The Board of Directors of the Company is responsible for the preparation of the Financial Statements to give a true and fair view on the financial position, the financial performance and the cash flows of the Company during the year. In order to prepare these Financial Statements, the Board of Directors is required:

- select the appropriate accounting policies and apply them consistently;
- make judgment and estimates prudently;
- state clearly whether the accounting standards applied to the Company are followed or not, and all the material differences from these standards are disclosed and explained in the Financial Statements;
- prepare the Financial Statements of the Company on the going-concern basis, except for the cases that the going-concern basis is considered inappropriate;
- design and implement effectively the internal control system in order to ensure that the preparation and presentation of the Financial Statements are free from material misstatements due to frauds or errors.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4
STATEMENT OF THE BOARD OF DIRECTORS (cont.)

The Board of Directors hereby ensures that all the accounting books of the Company have been fully recorded and can fairly reflect the financial position of the Company at any time in compliance with the applicable Accounting System. The Board of Directors is also responsible for managing the Company's assets and consequently has taken appropriate measures to prevent and detect frauds and other irregularities.

The Board of Directors commits to the compliance with the aforementioned requirements in preparation of the Financial Statements.

Approval on the Financial Statements

The Board of Directors of the Company hereby approves the accompanying Financial Statements, which give a true and fair view of the financial position of the Company as of 31 December 2019, the financial performance and the cash flows for the fiscal year ended 31 December 2019 in accordance with the Vietnamese Accounting Standards and System as well as other legal regulations related to the preparation and presentation of the Financial Statements.

INDEPENDENT AUDITOR'S REPORT

THE SHAREHOLDERS, THE BOARD OF MANAGEMENT AND THE BOARD OF DIRECTORS POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

We have audited the accompanying Financial Statements of Power Engineering Consulting Joint Stock Company 4 (hereinafter referred to as "the Company"), which were prepared on 10 March 2020 (from page 7 to page 38) including the Balance Sheet as of 31 December 2019, the Income Statement, the Cash Flow Statement for the fiscal year then ended and the Notes to the Financial Statements.

Responsibility of the Board of Directors

The Company's Board of Directors is responsible for the preparation, true and fair presentation of the Financial Statements in accordance with the Vietnamese accounting standards and system as well as the legal regulations related to the preparation and presentation of the Financial Statements; and responsible for the internal control as the Company's Board of Directors determine necessary to enable the preparation and presentation of the Financial Statements to be free from material misstatement due to fraud or error.

Responsibility of Auditors

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical standards and requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and true and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion of Auditors

In our opinion, the Financial Statements referred to above, give a true and fair view, in all material respects, the financial position as of 31 December 2019 of Power Engineering Consulting Joint Stock Company 4, as well as its financial performance and its cash flows for the fiscal year then ended in conformity with the prevailing Vietnamese accounting standards and system as well as the other legal regulations relevant to preparation and presentation of Financial Statements.

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

II. FISCAL YEAR AND ACCOUNTING CURRENCY

1. Fiscal year

The fiscal year of the Company is from 1 January to 31 December annually.

2. Accounting currency unit

The accounting currency unit is VND because payments and receipts of the Company are primarily made in VND.

III. ACCOUNTING STANDARDS AND SYSTEM

1. Accounting Standards and System

The Company applies the Vietnamese Accounting Standards and System which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014 as well as other Circulars guiding the implementation of Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of Financial Statements.

2. Statement on the compliance with the Accounting Standards and System

The Board of Directors ensures to follow all the requirements of the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014 as well as other Circulars guiding the implementation of Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of Financial Statements.

IV. ACCOUNTING POLICIES

1. Accounting convention

All the Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Foreign currency transactions

Transactions in foreign currencies are converted at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are converted at the actual exchange rates ruling as of the balance sheet date.

Foreign exchange differences arisen from foreign currency transactions during the year shall be included into financial income or financial expenses. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies after offsetting their positive differences against negative differences shall be included into financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For the foreign currency trading contract (including spot contract, forward contract, future contract, option contract, currency swap): the exchange rate stipulated in the contracts of trading foreign currency between the Company and the Bank.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

- For the capital contribution or receipt of capital contribution: buying rate of the commercial bank where the company opens account to receive the contributed capital from investors as at the date of capital contribution.
- For receivables: the buying rate as at the time of transaction of the commercial bank where the company nominates the customers for payments.
- For payables: the selling rate ruling as at the time of transaction of the commercial bank where the company supposes to make payments.
- For acquisition of assets or immediate payments in foreign currency (not included into payable accounts): the buying rate of the commercial bank where the company makes payments.

The exchange rate used to reevaluate the balance of monetary items in foreign currencies as of the balance sheet date is determined in line with the following principles:

- For foreign currency deposits: the buying rate of the bank where the Company opens its foreign currency account.

3. Cash and cash equivalents

Cash include cash on hand and demand deposits. Cash equivalents are short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the balance sheet date.

4. Financial investments

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Company intends and is able to hold to maturity. Held-to-maturity investments include term deposits (including debentures and promissory note), bonds, preferred shares that the issuer are required to re-purchases at a certain date in the future and held-to-maturity loans for the purpose of receiving periodical interest as well as other held-to-maturity investments.

Held-to-maturity investments are initially recognized at cost including the purchase cost and other transaction costs. After initial recognition, these investments are recorded at recoverable value. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received. Interests arising prior to the Company's acquisition of held-to-maturity investments are recorded as a decrease in the costs as at the acquisition time.

When there are reliable evidences proving that a part or the whole investment cannot be recovered and the loss are reliably determined, the loss is recognized as financial expenses during the period while the investment value is derecognized.

Investments in associates

Associates

An associate is an entity which the Company has significant influence but not the control to govern the financial and operating policies. Significant influence is the right to participate in making the associate's financial and operating policies but not control those policies.

Initial costs

Investments in associates are initially recognized at costs, including the cost of purchase or capital contributions plus other directly attributable transaction cost. In case of investment in non-monetary assets, the costs of the investment are recognized at the fair value of non-monetary assets at the arising time.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

Dividends and profits of the periods prior to the purchase of investments are recorded as a decrease in value of such investments. Dividends and profit of the periods after the purchase of investments are recorded into the Company's revenues. Particularly, the dividends paid in form of shares are not recorded as an increase in values, but the increasing quantity is followed up.

Provisions for impairment of investments associates

Provisions for impairment of investments associates is made when the associates suffer from losses at the rate equal to the difference between the actual capital invested by investors in associates and the actual owner's equity multiplying (x) by the Company's rate of capital contribution over the total actual capital invested by investors in associates. If the associates are consolidated into Consolidated Financial Statements, the basis for impairment provisions is the Consolidated Financial Statements.

Increases/ (decreases) in the provisions for impairment of investments in associates are recorded into "Financial expenses" as of the balance sheet date.

Investments in equity instruments of other entities

Investments in equity instruments of other entities include such investments in equity instruments that do not enable the Company to have the control, joint control or significant influence on these entities.

Investments in equity instruments of other entities are initially recognized at costs, including cost of purchase plus other directly attributable transaction costs. Values of these investments are derecognized for dividends and profits arising in the periods prior to the acquisition of such investments. Dividends and profit arising in the periods after the acquisition of investments are recorded into the Company's revenue. Particularly, the dividends paid in form of shares are not recorded as an increase in values, but the increasing quantity of shares is followed up.

Provisions for impairment of investments in equity instruments of other entities are made as follows:

- For investments in listed shares or fair value of investments which is reliably measured, provisions are made on the basis of the market value of shares.
- For investments of which the fair value cannot be measured at the time of reporting, provisions are made on the basis of the losses suffered by investees, at the rate equal to the difference between the actual capital invested by investors and the actual owner's equity multiplying (x) by the Company's rate of capital contribution over the total actual capital invested by investors in these investees.

Increases/ (decreases) in the provisions for impairment of investments in equity instruments of other entities are recorded into "Financial expenses" as of the balance sheet date.

5. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company, inclusive of receivables for the exports entrusted to other entities.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of the estimated loss.

Increases/(decreases) in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into "General and administration expenses".

6. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Cost of inventories is determined as follows:

- For materials and merchandises: Costs comprises costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- Work-in-process: Costs only comprises main materials, labors and other directly relevant costs.

Stock-out costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable values. For services in progress, allowance is recognized for each type of services at their own specific prices. Increases/(decreases) in the obligatory allowance for inventories as of the balance sheet date are recorded into "Costs of sales".

7. Prepaid expenses

Prepaid expenses comprise actual expenses arising and relevant to financial performance in several accounting periods. Prepaid expenses of the Company include tools and expenses of fixed asset repairs. These prepaid expenses are allocated over the prepayment period or period of corresponding economic benefits generated from these expenses.

Tools

Expenses of tools being put into use are allocated into expenses in accordance with the straight-line method for the maximum period of 2 years.

Other expenses

Expenses of fixed asset repairs and other expenses arising once with high value are allocated into expenses in accordance with the straight-line method for the maximum period of 3 years.

8. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the year.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	05 – 25
Machinery and equipment	05 – 08
Vehicles	6
Office equipment	03 - 06

9. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Company to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

The Company's intangible fixed assets include:

Land use right

Land use right includes all the actual expenses paid by the Company directly related to the land being used such as expenses to obtain the land use right, expenses for house removal, land clearance and ground leveling, registration fees, etc. Fixed-term land use right is amortized over the land using period. Long-term land use right is not amortized.

Long-term land use right granted by the State is determined in line with documents of enterprise valuation so as to equitization as of 31 December 2005.

Computer software

Expenses related to computer software, which is not a part associated with the relevant hardware, will be capitalized. Initial costs of computer software include all the expenses paid by the Company until the date the software is put into use. Computer software is amortized in accordance with the straight-line method for the period from 3 to 5 years.

10. Payables and accrued expenses

Payables and accrued expenses are recorded based on the amounts payable for goods and services already used. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets and the seller is an independent entity with the Company, including payables for import through entrustment.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the Balance Sheet on the basis of their remaining period as of the balance sheet date.

11. Owner's equity

Share capital

Capital is recorded according to the actual amounts invested by shareholders.

Treasury shares

When a share capital in the owner's equity is re-purchased, the amount payable including the expenses related to the transaction is recorded as treasury shares and a corresponding decrease in owner's equity then is recognized. When this share capital is re-issued, the difference between the re-issuance price and carrying value of treasury shares is recorded in share premiums.

12. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the Shareholders Meeting.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the Shareholders' Meeting and Decision of the Board of Management regarding dividends payment.

13. Recognition of sales and income

Sales of rendering services

Sales of rendering services shall be recognized when all of the following conditions are satisfied:

- the amount of sales can be measured reliably. When the contract stipulates that the buyer is entitled to return the services rendered under specific conditions, sales is recognized only when these specific conditions are no longer existed and the buyer is not entitled to return the services rendered.
- the Company received or shall probably receive the economic benefits associated with the rendering of services.
- the stage of completion of the transaction at the end of reporting period can be measured reliably.
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

In the case that the services are provided in several accounting periods, the determination of sales is done on the basis of the stage of completion as of the balance sheet date.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

Dividends and profit shared

Dividends and profit shared are recognized when the Company has the right to receive dividends or profit from the capital contribution. Particularly, the dividends paid in form of shares are not recorded into income, but the increasing quantity is followed up.

14. Construction contracts

Construction contract is a agreement contract to construct a assets or a group of assets tightly relating or depending in respect of design, technology, function or those use purpose.

When the results from the contract implementations are reliably estimated:

- For the contracts stipulating that the contractors are paid according to the planned progress, income and expenses related to these contracts are recognized correspondingly to the works already completed as determined by the company itself.
- For the contracts stipulating that the contractors are paid according to the works actually done, income and expenses related to these contracts are recognized correspondingly to the works already completed as confirmed during the period in the invoices made by the customers.

Increases/(decreases) in revenue of the works done, compensation receivable and other receivables are only recognized upon the agreement with customers.

When the outcome of the construction contracts cannot be estimated reliably:

- Contract revenue is recognized only to the extent that contract costs incurred are expected to be reliably recoverable.
- Contract costs are only recognized as actually incurred.

The difference between the accumulated revenue from the construction contract already recognized and the accumulated amount in the invoices according to the planned progress of contract is recognized as an amount receivable or an amount payable according to the planned progress of implementation of the construction contracts.

15. Expenses

Expenses are those that result in outflows of the Corporation's economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

16. Corporate income tax

Corporate income tax expenses includes current income tax and deferred income tax.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

Current income tax

Current income tax is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the financial statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of taxable income in the future against which the temporarily deductible differences can be used.

Carrying values of deferred corporate income tax assets are considered as of the balance sheet date and will be reduced to the rate that ensures enough taxable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as of the balance sheet date and are recorded when there is certainly enough taxable income to use these unrecognized deferred corporate income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date. Deferred income tax is recognized in the income statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity.

The Company shall offset deferred tax assets and deferred tax liabilities if, and only if:

- The Company has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
 - Of the same subject to corporate income tax; or
 - The Company has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

17. Related parties

A party is considered a related party of the company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Company in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

18. Segment information

A business segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

A geographical segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

Segment information is prepared and presented in conformity with accounting policies applied to prepare and present the Company's Financial Statements.

19. Financial instruments

Financial assets

The classification of financial assets depends on their nature and purposes and is determined at the date of initial recognition. The financial assets of the Company include cash and cash equivalents, trade receivables, other receivables, non-listed financial instruments, and derivatives.

At the date of initial recognition, financial assets are recognized at original cost plus other costs directly related to the acquisition or issuance of those financial assets.

Financial liabilities

The classification of financial liabilities depends on their nature and purposes and is determined at the date of initial recognition. The financial liabilities of the Company include trade payables, borrowings, other payables, and derivatives.

At the date of initial recognition, other financial liabilities are recorded at original cost less other costs directly related to those financial liabilities.

Equity instrument

Equity instrument is the contract which can prove the remaining benefits in the assets of the Company after deducting all of its liabilities.

Offsetting financial instruments

Financial assets and financial liabilities will be offset against each other and reflected at their net values in the Balance Sheet when, and only when, the Company:

- has a legal right to offset the recognized amounts; and
- has intention either to settle on a net basis, or to recognize the asset and to settle the liability simultaneously.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

Price of service provision to other related parties is arm's length price. Purchasing services from other related parties is done according to arm's length price.

Liabilities with other related parties

Liabilities with other related parties are presented in Notes V.2a, V.4a, V.11, V.12 and V.16.

Receivables from other related parties are un-secured and paid by cash. No provision for bad debts are made for receivables from other related parties.

3. Segment information

The business segment of the Company is to provide survey and design consulting service and the geographical segment of the Company is in Vietnam.

4. Financial risk management

The Company's operation arises financial risks as follows credit risk, liquidity risk and market risk. The Board of Directors has responsibility for establishing policies and the control in order to diminish financial risks as well as manage performance of policies and the controls established.

4a. Credit risk

Credit risk is the risk that a contractual party cannot perform its responsibilities, leading to a financial loss to the Company.

The Company has credit risks from accounts receivable from customers and bank deposits.

Receivable from customers

The Company diminishes credit risk by only transacting entities having good financial ability, request for opening L/C or collaterals applied for entities having the first transactions or not yet having information on financial ability. In addition, accountant constantly follows up accounts receivable to speed up recovery.

Receivable from customers of the Company relates to entities and individuals; therefore credit risk concentrating accounts receivable from customers is low.

Bank deposits

Most bank deposits of the Company are deposited at domestic banks. The Board of Directors recognizes that there are no material credit risk of these deposits.

The maximum credit risk of financial assets is book value of financial assets (see Note VII.4 on book value of financial assets).

Analysis on overdue time and devaluation of financial assets is as follows:

	Not yet overdue or not impaired	Already overdue or impaired	Total
Ending balance			
Cash and cash equivalents	54.626.358.069	-	54.626.358.069
Receivable from customers	82.286.200.324	2.481.247.709	84.767.448.033
Other receivables	6.042.575.997	-	6.042.575.997
Available-for-sale financial assets	1.041.640.000	1.050.000.000	2.091.640.000
Total	143.996.774.390	3.531.247.709	147.528.022.099

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

	<u>Not yet ovedue or not impaired</u>	<u>Already overdue or impaired</u>	<u>Total</u>
Beginning balance			
Cash and cash equivalents	55.930.564.831	-	55.930.564.831
Receivable from customers	57.809.608.499	4.330.435.371	62.140.043.870
Other receivables	6.045.908.969	-	6.045.908.969
Available-for-sale financial assets	1.041.640.000	1.050.000.000	2.091.640.000
Total	<u>120.827.722.299</u>	<u>5.380.435.371</u>	<u>126.208.157.670</u>

4b. *Liquidity risk*

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities.

The Company's liquidity risks mainly arise from the differences in maturity dates of financial assets and financial liabilities.

The Company controls liquidity risk by regularly following up the current payment requests as well as estimated payment requests in the futures to maintain an appropriate amount of cash as well as loans, supervising the cash flows actually arisen in comparison with estimation to minimize the effects of the changes in cash flows to the Company.

The terms of payments to non-derivative financial liabilities (excluding interest payable) are based on the undiscounted payments supposed to make according to the contracts as follows:

	<u>From 1 year or less</u>	
	<u>Ending balance</u>	<u>Beginning balance</u>
Trade payables	14.905.098.003	7.073.904.641
Other payables	14.032.717.750	13.859.839.117
Total	<u>28.937.815.753</u>	<u>20.933.743.758</u>

The Board of Directors believes that the risk level associated with payments to financial liabilities is low. The Company has sufficient capacity to settle all financial obligations when they are due from its operating cash flows and from the amounts receivable from mature financial assets. The Company is able to approach capital sources and loans falling due within 12 months, which can be extended with the current creditors.

4c. *Market risk*

Market risk is the risk that the fair value or cash flows in the future of a financial instrument will fluctuate due to changes in market prices.

Market risks exposed to the operations of the Company include risk arising from material price.

POWER ENGINEERING CONSULTING JOINT STOCK COMPANY 4

Address: 11 Hoang Hoa Tham - Loc Tho Ward - Nha Trang City - Khanh Hoa Province - Vietnam

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2019

Notes to the Financial Statements (cont.)

Sensitivity analysis, the appreciations below related to financial situation of the Company as of 31 December 2019 and 31 December 2018 base on net liability value. Change level of price arising from materials/ goods used to analyze sensitivity is based on appreciating ability to cause within the next year with visible condition of current market.

Risk arising from materials price

The Company is exposed to the risk related to fluctuations in materials prices. The Company manages the material price risk by following up the market information and related situations to control the time for purchasing materials, preparing manufacturing plan and keeping the volumes of inventories at reasonable level.

The Company has not used derivatives to avoid material price risk.

4d. Collaterals

The Company has not had any collaterals given to other entities as well as received any collaterals from other entities as at 31 December 2019 and 31 December 2018.

5. Financial assets and financial liabilities

Financial assets

Carrying values of financial assets are as follows:
